For 
Head Purchase

Specification for Washing machine with dryer

The system should be front loaded

The system has the capacity of 8.5 kg

The system should have the spinning RPM of 1400

The system should have LCD Display and touch based microcontroller system.

The system should have sanitize and Hygiene option inbuilt as a feature

The system should have Dryer also included.

The system should have Drum light, Quick/ express wash, Program memory features in built.

The system should have crescent moon shaped drum.

The system should have safety features like self-diagnosis, High low voltage protection, auto imbalance vibration control, child lock, Protective rat mesh.

The washing programs should be min 10 which includes Temperature options, spin speed, prewash, soak, extra rinse, rinse hold, time saver, delay start.

The system should be equipped with Ball valve technology.

The system be under warranty period of 5 years.

The Motor should be under the warranty period of 10 years.

The system should be CE/ ISO certified.

The system should operate at 230V, 50 Hz AC power supply.

The energy rating shall 5 as per the standard BEE energy ratings.

The system be supplied with the suitable accessories for the functioning of the system.

Specification for Induction cooker

The system should be induction cook top.

The system should have LED Display with touch buttons in the control panel.

The system power consumption should be of 2000 watts.

The system should be equipped with Anti magnetic wall, anti-skid ring, automatic voltage regulator, power consumption displays, Automatic start option.

The system material type should be stainless steel.

The system should be compatible in using with Stainless steel pots, Stainless Steel Pots, Stainless Steel Rice Cookers, Cast Iron Frying Pots, Oil boiling Pots, Stainless Steel Water Jugs, Cast Iron Pots, Color Pots, Grilling Iron Plate.

The system should be compatible with the induction based utensil with bottom diameter of Min 12 cm to Mac 26 cm.

The system operates at 230V, 50 Hz Ac power supply.

The system should be CE/ ISO certified.

The system should be under warranty period of 1 year.

The system be supplied with suitable accessories for the functioning of the system.

Specification for Microwave Oven

The system should be of a Convection type oven.

The system capacity should be 30 Litres.

The system should have control type of Touch key pad (Membrane).

The system should have control panel with the option for 4 char Display and other option like Cooking time, Kitchen Time, Standing time etc.

The system should have temperature ranging from 110°C to 200°C.

The system should have display settings for the timer ranging from 99 min 99 seconds.

The system should have Child lock features.

The system should have cavity material made up of Stainless Steel.

The system should be equipped with the required safety features to operate and Short circuit protection system.

The system should have features for child lock, Turbo defrost, Keep warm, Quick 30 sec, Auto Re-heat, Auto cook options.

The system should be supplied with the required accessories for the functioning and usage of the Microwave oven.

The system should have power consumption of 1600 watts.

The system should operate at 230V, 50 Hz.

The system should be under the warranty period of 3 years.

The system should be CE/ ISO Certified.

Specification for LED Television

The system Display type should be LED based.

The system should have display size of 55-inch diagonal.

The system should be equipped with 4 HDMI inputs, 3 USB ports (Version 3.0)

The system should have connectivity for Wifi and Internet.

The system should have resolution of 4K based.

The system should have aspect ratio of 16:9

The system should have horizontal viewing and vertical viewing angle of 180 degrees.

The system should have video compatible with PAL, NTSC, SECAM.

The system should support video formats of DIVx HD, MP4, AVI

The system should support image formats of JPEG.

The system should have built in speaker and should support audio formats of MP3, AC3, MPEG.

The system should have 2 speakers inbuilt and 3.5mm stereo headphones inputs.

The USB ports should support Audio, video and Images.

The system should operate at 230V, 50 Hz AC supply.

The system should be CE/ ISO certified.

The system should be under warranty for 1 year.

The system should be supplied with the suitable stabilizer and adjustable wall mounting bracket included in the main offer.

The system should be supplied with the suitable accessories including the TV remote.
