

The BLiSC

SCIENCE CAFÉ

SPECIAL EDITION

A Bangalore Life Science
Cluster (BLiSC) Initiative

What do speciation and your favourite samosa-vendor have in common?

How are local chai-shops and Macaranga trees an analogy for pioneer species?

What are the similarities between mutual-funds and forests when it comes to highlighting the portfolio effect?

In the first-of-its-kind BLiSC Science Cafe Special, we bring you, "Sci-Comm'erce" - a novel approach in communicating scientific concepts in ecology and evolution to non-science audiences.

Whiz kid *Arjun Kamdar (NCBS-MSc Wildlife)* draws parallels between everyday economics observations and scientific concepts and creates some fascinating insights and ways of seeing.

SUNDAY
22nd Sep
11 am

The Hub @ Safina Plaza,
84/85 Infantry Road,
