

Regenerative Biology - From Lab to Bedside

**Lecture Series in Advanced Biology
28 January - 18 March, 2018**

The postdoctoral community of NCBS and inStem have been organizing annually a certified course on advanced topics in biology, this year the theme being Regenerative Biology. The purpose of these lectures is to introduce a select group of students to research oriented learning, which includes specially crafted classes involving interactive lectures and activity sessions.
Limited seats available.

Lectures on:
Biology of stem cells
Model Organisms
Organ Regeneration
Therapeutic applications

Online Registration Deadline : 31 December, 2017
<https://www.ncbs.res.in/people/postdocs-lecture-series>
Venue: Malgova, National Centre for Biological Sciences, Bangalore
